## IN OUR VALLEY

ANOTHER SUMMER IS WITH US.

Straw hats, linen suits, and the other signs of summer are noticeable on every hand Monday.

And should be more conspicuous during the winter season.

People in the Valley must pay more attention to atmosphere—if this section is to attract tourists. They must wear lighter colored, more tropical appearing clothes during the warm days of the winter season.

A suit can be warm and still light colored—

AN OLD COLLEGE MATE—Hal Bourland of Houston, dropped in Monday.

Says he is getting ready to go to Chicago soon.

We gather from Bourland, who is in the advertising business.

That the big advertisers are getting ready to increase their drives for business—that they expect increased activity shortly.

A BIG DREDGE MAY BE SEEN from the Boca Chica highway throwing up a levee along the Rio Grande—

So that, flood waters will not spread over the lands in the section north of the Port Isabel Pumping plant with every rise.

This will be good news to everybody except people who like to hunt geese—who may be had news for them.

INCIDENTALLY, WE WONDER why some enterprising person doesn't lease a big tract of land on the coast in that section—

Say part of the Esperson land—

And develop it into a fine goose and duck hunting preserve.

Such developments in California and some states on the Atlantic coast have paid well—

They should here, also.

OUR NEIGHBORHOOD COUNTY to the north, Willacy, is beginning to ship onions.

The big shipments will be rolling by the second week of April.

And on April 6 and 7 Willacy county will celebrate her annual money-crop with a fine crop-festival.

Brownsville will join in the festival we are informed by the Brownsville Chamber of Commerce—

And other cities in the Valley will take part.

THE DAY APPEARS TO BE drawing nearer when there will be an all-weather highway from Brownsville to Victoria, Mexico, through Matamoros, and San Fernando.

At the road meeting in Matamoros Friday night the long and continued efforts of two local men toward securing that road were rewarded highly by Matamoros officials—

These two men are A. Wayne Wood, chairman of the foreign relations committee, and G. C. Richardson, manager, of the Brownsville chamber.

That highway, coupled with the Kennedy county road, will divert a great part of the tourist traffic to Mexico through Brownsville and Matamoros.

ALL DAY LONG EVERY DAY of the week, including Sundays, the big barge of the Callahan Construction company is ferried back and forth on the turning basin at Port Isabel to the pass—

Carrying rock for the jetties.

Much of the time the barge now is carrying big granite stone for the top structure on the jetties.

Steadily those arms of stone are being extended out into the Gulf—

So that the ships of the world may be able to come into the Valley and carry away its produce, along with that of Northern Mexico.

## COUNTIES ARE TO TAKE NEW DRAIN ACTION

60 to 70 Percent Of Labor Must Go To Project

Cameron, Hidalgo and Willacy counties will have to pass resolutions allowing 60 to 70 percent of the available unemployed labor to be used on the Tri-County Drainage & Reclamation district before state relief officials can give the matter proper consideration, according to information received here from Co. Judge A. W. Cunningham in Austin.

Writes Judges

Judge Cunningham is secretary of the district's board of directors and is in Austin in an effort to have the state relief organization take over the proposed \$2,000,000 job.

His letter to Judges E. C. Couch and W. E. McCharen, other directors of the district, in part is as follows: "Unemployment in each county is to be completely reckoned; official meetings will be held by calling county officials, city officials, and officials of other subdivisions. ## Dillinger Hunt Spreads Again

ST. PAUL, April 2. (P)—The search for John Dillinger spread to the entire northwest Monday while the authorities guarded against a new sortie by the quick-triggered Indiana gunman. Police are satisfied that his pal and chief lieutenant, John Hamilton, is still with him and they believe the pair plan to rob a bank in the northwest early this week. A score of suspects were held for questioning as a result of Saturday's shooting in which Dillinger and Hamilton, accompanied by a woman, fought their way out of an apartment when federal agents and a city detective went to the place on a tip.

## Man and Woman Are Stabbed With Pick

## Kids Hunt Eggs At White House

WASHINGTON, April 2. (P)—Stand clear and tread lightly. Monday was Easter egg rolling day at the White House.

It was the day when children rule the executive grounds, visit Mrs. Roosevelt, Sistine and Quetzal, and clutter up the lawn to their hearts content with brightly colored eggs. All this provided it didn't rain too hard.

With around 100,000 visitors in Washington for Easter, and the cherry blossoms not out yet, thousands headed toward the White House. By tradition, the day belongs chiefly to the toddlers, the three, four, five, and six-year-olds. In comparison, the Girl Scouts are quite mature young ladies, who are there to help the lost ones find their mothers and vice versa.

## KU KLUX AID CHURCH WORK

Hooded Group Puts Money At Altar At Services In Mercedes

(Special to The Herald) MERCEDES, April 2.—The Ku Klux Klan again has served notice that it still lives at Mercedes. The congregation of the Seven Day Adventist revival services which have been going on for several weeks at the Elks hall here was thrown into confusion last week when a group of Klansmen, dressed in robes and hoods and carrying a fiery cross and an American flag, marched down the aisle during the services and left a package at the altar.

The package, when opened, revealed a letter asking money for the Klan. The letter stated that the Klan was in sympathy with the church's efforts and the money was to be used in carrying on the work.

Rev. Anderson was in charge of the service. Recently much excitement was caused in Mercedes and several other Hidalgo county cities when fiery crosses were left about the countryside.

## Rescue Plane Yet Missing

MOSCOW, April 2. (P)—Experts feared Monday that three Russian aviators met disaster in heroic attempts to rescue 89 men marooned on an ice-floe off the northern cape of Siberia.

## DESTITUTE TO GET NEW JOBS FROM STATES

Million and Half Men Get Work Up to 24 Hours a Week

WASHINGTON, April 2. (P)—A million and a half men reached Monday for the hoes, hammers and shovels they dropped last week—but they are relief workers no longer for the government.

State relief administrations assumed the job of seeing that work up to 24 hours a week goes to those who otherwise might be hungry. Conceding the faults of the Civil Works Administration experiment, Harry L. Hopkins, administrator, nevertheless declared it a major success.

Hopkins is probably the only man in history who ever directed the hiring and then the firing of 4,000,000 men in so short a time.

About 300,000 persons still are classed as CWA employees, but they too will be dropped in the next few weeks. They are the clerks and auditors closing the administration's books and some research workers on federal projects.

## Ethiopian's Marriage To Jap Is Called Off

TOKYO, April 2. (P)—The projected picture-bride marriage of the Ethiopian Prince Li Araya and Miss Masako Kuroda, daughter of Viscount Higashiyama, has been cancelled and, despite official denials of interference, vernacular newspapers surmised Monday that the match had run afoul of powerful forces of international peace. The Addis-Ababa, Ethiopia, correspondent of the Tokyo newspaper Nichi Nichi reported that the foreign minister of Ethiopia had announced the marriage plans had been called off, quoting the prospective bridegroom to the effect that the machinations of "a certain power" had interfered.

## TWO PATROLMEN ARE SHOT DOWN IN COLD BLOOD

Man Who Brings In Clyde Barrow Or Raymond Hamilton Gets \$1,500 Reward

AUSTIN, April 2. (AP)—Rewards of \$1,500 were offered Monday for the killer or killers of two State Highway patrolmen slain near Grapevine Sunday. One thousand dollars was guaranteed by L. G. Phares, chief of the patrol, who said it would be paid for "the apprehension and conviction, or for the dead bodies," of the slayers. He said the money would be made up by members of the highway patrolmen or others who desired to contribute.

'MA' POSTS \$500

Gov. Miriam A. Ferguson posted a \$500 reward for each, Clyde Barrow and Raymond Hamilton, killers and robbers, "dead or alive." It was believed that Barrow was responsible for the officers' deaths.

The Ferguson reward also would be paid for the slayer, or slayers, of the state officers, even though the shooters were not Barrow or Hamilton.

E. B. Wheeler and H. D. Murphy, the slain officers, were shot to death as they approached a black sedan parked on a country road.

Hamilton was freed from the Eastham farm of the state penitentiary a few weeks ago by a man who wielded a machine gun. A guard was killed and another wounded. Barrow, who had been Hamilton's partner in crime, was believed responsible for that delivery. He was also believed to have handled the machine gun.

Patrol Promises Revenge

The State Highway patrol will never cease its efforts until the killers of the two patrolmen are caught, Phares declared. "These were the first patrolmen to be shot and killed," he said. "Their fellow patrolmen will use every effort and never quit the job until the merciless killer is caught."

He again warned his patrolmen (Continued on Page Two)

## EXTRADITION TREATY WITH U. S. RATIFIED

Greece Sends Legal Talent To Aid Of 'Czar'

WASHINGTON, April 2. (P)—Turkey Monday notified the United States that Samuel Insull would be extradited to Chicago to stand trial.

ISTANBUL, April 2. (AP)—The Turkish national assembly Monday ratified an extradition treaty with the United States, thus clearing the way for the return of Samuel Insull to Chicago.

Called into special session by the cabinet, the assembly acted swiftly at Ankara.

The treaty was signed in 1933 and ratified by the United States but until the problem of Samuel Insull was placed on her doorstep Turkey had not chosen to bring it into force.

ISTANBUL, April 2. (P)—Samuel Insull, Sr., a fugitive for a year and a half from Cook county, Ill., polis, indictments charging him with embezzlement and grand larceny, was arrested by Turkish police Monday.

May Plead Illness

They took him from the Hotel London, despite his protestations, to the house of detention.

Kenan Bey, attorney general, showed that if an examination of the 74-year-old former utilities czar to be ill, he would eventually be transferred to the prison infirmary to await disposition of his case.

A battery of Greek legal talent was reported en route from Athens to fight in his behalf—an apparent last ditch effort to save Insull from trial in Chicago on the charges which arose from the overthrow of his one-time empire of middle western utilities.

Different Residences

With his removal to the house of detention, Insull had lived in four different places in Istanbul since he arrived here last week.

His first place of residence was the Greek tramp freighter, the S. S. Maitos, which he had come here from Athens; he was removed from the Maitos forcibly Sunday and placed in the hotel Aydan. Then he was taken to the hotel London in the suburb of Pera.

At the hotel London he ate lunch and followed the meal with a short nap.

Although surrounded by policemen, he was permitted a nominal liberty and, awakening from his nap, started out for a walk.

The walk lasted only about 100 paces, for he found himself to be followed by a squad of spectators. He went back to the hotel, changed some American dollars into Turkish money, picked up some newspapers and settled himself down in the hotel lounge.

Insull was still in the hotel when the police, acting on instructions from the Turkish government, placed him formally under arrest.

Appeal Is Filed

A Turkish lawyer immediately moved to action for Insull, filing an appeal against the decision of the penal court which Sunday ruled that, as Insull had committed neither a military nor political crime and was not a citizen of Turkey, he was eligible to extradition.

Judicial authorities said, however, that the right of appeal was not operative as the penal court's decision was final.

## NATIONAL WHIRLIGIG--NEWS BEHIND THE NEWS

Washington by George Durno — New York by James McMullin

### WASHINGTON

By George Durno

RIFT—Be ready for the brewing row between Gen. Johnson and one of the members of the newly-created Review Advisory Board. It's apt to become public property any day.

The Review Advisory Board, set up last week, is the agency set up with Clarence Darrow as chairman to operate independently of NRA and listen to small business men railing against co-operation.

It seems one of the members argued up nursing a secret hate for Johnson.

The other day, according to our ear-to-the-ground department, the Board was in session. Some one suggested it hadn't been getting any where near the publicity it rated.

Up spoke the before-mentioned member with an admonition they could all afford to hold their horses for a while. He allowed as they wouldn't be long before they'd "get something" on Gen. Johnson that would develop plenty of publicity—to say nothing of exploding certain NRA principles with which the speaker was out of accord.

As the session was executive, in the ordinary course of events this little pleasantry would have been forgotten.

Here the plot thickens. There is another member of the Darrow Board who is secretly friendly to the general. He confided what had transpired.

Johnson is said to have puffed straight to the White House to ask the wherefore of a man holding views hostile to NRA as a mem-

ber of an agency supposed to deal out impartial justice.

The president is reported to have suggested that Johnson ask him to resign. Whereupon Johnson reminded the president that the Review Board was set up by executive order and he, Johnson, had no control over it.

A final suggestion came from somewhere that Sen. Nye, of N. D., be asked to see the hostile-to-Johnson man and suggest that a resignation would be graceful and acceptable.

Presumably this was because Nye was the progenitor of such a Board to protect the small business man—although he took some healthy socks at Johnson while he was at it.

In any event Nye was approached. From another source comes the report Nye did see the offender—but failed to mention anything about the resignation! That leaves the last act still uncertain.
